SOLID-STATE DESTROYER

SSD-1

Patented Solid-State Destroyer

PD-5 with SSD-1 in the destruction chamber

Patented Solid-State Destroyer

Create the ultimate destruction package by adding solid-state destruction capability to your PD-5. Garner's patented SSD-1 ensures secure destruction of data stored on solid-state media, flash drives, USB thumb drives, mobile phones and SSHD (solid-state hybrid drives) controller boards.

The nickel-plated SSD-1 has 90 spikes to puncture, perforate, and waffle media, demolishing the individual memory chips and preventing data from being retrieved.

Package Includes

- SSD-1 solid state media destroyer
- (5) SSD media transport sleeves (SSD-MT)

Mil-SPEC Shipping Case

Heavy-duty outer shell and interior foam padding protect equipment from damage during transit.

Solid-State Media Transport Sleeves

The SSD-MT sleeves hold smaller flash and thumb drives when using the SSD-1 solid-state destroyer.
