**CASES Equipment Cases**
Each mobility case is custom designed and constructed to securely hold specific equipment combinations. Cases offer features that include:

- Die-cut foam to protect equipment during transit
- High-quality ball bearings, smooth-rolling wheels
- Full-swivel, locking, and removable casters* 
- Recessed handles to protect handles during transit
- Recessed latches for secure transport
- Low-profile design to fit through standard doorways and into elevators

*Product transport cases and mobility package cases only.

**Product transport cases**

- **CASE-TS1**: Holds the TS-1 NSA-listed hard drive degauser
- **CASE-25SSD**: Holds SPACESAVER compliance package or DDM-25SSD package
