FLASHPRO IRONCLAD®
Solid-State Shredder with Integrated Auditing System
Verified Destruction

Garner's exclusive IRONCLAD system automatically captures a JPG image of the media and generates a proof-of-erasure and destruction certificate for audit and archival purposes.

IRONCLAD Features and Benefits

- Tracks and stores media serial numbers, user ID, witness ID, and date in a password-protected system

- Provides proof media was shredded by capturing a JPG image of the media before destruction

- Informs operator of destruction results with a "SHREDDED" status after each cycle

- Generates Certificates of Destruction with images of the media

- Generates exportable JPG images and destruction results for audit and archival purposes in PDF, CSV, and Excel file formats

- IRONCLAD export options: Flash, ethernet, or optional optical media burner

- Operates in 2 modes: "Verification Mode" with prompts for new operators; and "Processing Mode" for faster processing

- IRONCLAD is TAA compliant

Package Includes

- FLASHPRO high-volume solid-state shredder specifically designed to shred digital media in an office environment

- Garner's exclusive IRONCLAD Erasure and Destruction Verification Report System

  » Image capture system

  » Touchscreen control head

  » Report generating software

  » Barcode scanner for recording media serial numbers
